## Music To Inspire

The power of her voice, overwhelming rhythm, masterful musicianship and irresistible charisma... when you see her live you will understand. Heather Frahn is not just an artist. She is a positive force.

This award winning, prolific writer has an impressive 11 releases in her discography (including her current, critically acclaimed offering 'Be the Change'), an enviable string of industry achievements and awards, plus a brag book of high calibre performances and projects spanning the globe; California, New York, Belgium and the United Kingdom, and to the prestigious 2013 WOMADelaide world music festival.

Heather has relentlessly shared her music across Australia and beyond with a passion and purity few artists possess.

But it's not her many achievements that drive her. It's her passion for creating music from the heart and not the head. Conscious, inspirational, soul-depth music that engages the heart and thrills the spirit.

### *Positive Social Change: One Song at a Time*

Her desire to raise the human consciousness through music has inspired her to embrace diverse musical styles and seamlessly weave them together to create a new sound, kissed by rhythm and energy.

Heather has explored an extraordinary range of vocal approaches, including a capella, jazz scatting, sanskrit mantra and beat-boxing, with one of her chief skills being 'harmonic overtone singing'.

When accompanied by her custom made eight-string acoustic baritone guitar, it comes together in an eclectic embrace of funky-folk with dashes of world, roots and reggae.

# Conscious Music for an Awakening World...

Heather Frahn is part of a spécial breed of musicians and songwriters who are pioneering the Conscious Music Movement, which celebrates positive inspiring songs that promote peace, wellbeing and a global community.

Heather, from her very beginnings created from the heart and not the head, with a desire to unite and touch the wisdom within humanity through her music and sounds. It is this that centers Heather into being a musical leader in the global shift in consciousness; towards one world that promotes healthy living in all ways, spiritually, ethically and environmentally.

Heather's lyrical honesty invites the ears, heart and soul of the listener. Writing with intent reflecting upon humanity with personal and global awareness in her words, she is inspired by authors like Eckhart Tolle, and teachings from Buddhism and other mystic spiritual traditions that unite people with 'one heart'. Heather's conscious lyrics express lessons learned and explore questions asked that are common to human beings globally.

*“Conscious lyrics, acoustic groove. Best album I’ve heard all month and that includes the new (Bob) Dylan release. In fact Heather out-Dylan’s Dylan with her observational lyrics, pop hooks and gutsy voice. Australia’s best-kept secret.”*

## BIOGRAPHY

Heather's versatility packs an almighty punch when she returns to her roots as a solo acoustic act. You may also catch Heather accompanied by members of her trio The Moonlight Tide; a commanding ensemble of musicians and extraordinary performers featuring Michelle Byrne and Michaela Burger playing percussion, cello, and ukulele, as well as combining rich 3-part vocal harmonies.

In 2011 Heather formed her ensemble "The Moonlight Tide" for a once-off festival. It was clear from this that Heather and her band were on a path of momentum to success! This was echoed by the outpouring of public and critical

acclaim, and also the invitation to perform live at the prestigious WOMADelaide festival in 2013. The group recorded and released their acclaimed album "Be The Change" in 2012 to a sell out crowd, and celebrated Heather's incomparable vocal ability, uplifting lyrics, inspiring songs and her custom-made hybrid baritone guitar.
